Access Automation

SLIDING GATE OPERATOR | SWING GATE OPERATOR | SLIDING DOOR OPERATOR | SHUTTER MOTORS | BOOM BARRIERS

Synergy Access automation enhances your daily life by streamlining everyday movements. Embrace a convenient and comfortable lifestyle with automatic sliding and swing gates. Upgrade your entrance with futuristic, hassle-free technology designed for modern living.

Pedestrian Access Gates

A pedestrian gate is specifically designed for pedestrian use, ensuring controlled access to designated areas while preventing unauthorized entry. Commonly found in residential properties, parks, commercial buildings, schools, and public spaces, pedestrian gates offer both security and ease of use. At Synergy Access, we specialize in crafting a diverse range of high-quality pedestrian gates. Engineered for reliability and convenience, our solutions combine superior access control with a commitment to exceptional service.

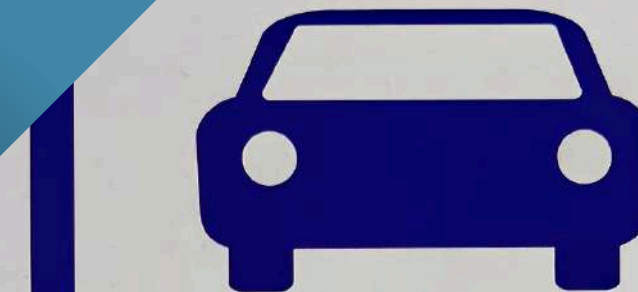

Parking

PARKING MANAGEMENT SYSTEM | PARKING INFORMATION SYSTEM | PARKING GUIDANCE SYSTEM

With the growing number of vehicles on the road, finding a parking spot can often become a hassle. Synergy Access offers advanced parking systems that allow users to locate and reserve parking spots in advance, ensuring a smoother travel experience. These systems also empower management to boost revenue, monitor real-time vehicle occupancy, and access traveler information for enhanced efficiency and control.

A close-up photograph of a hand interacting with a modern, silver-colored digital door lock keypad. The keypad features a grid of buttons with numbers 1 through 9, 0, *, and #. The hand is shown from the side, with the index finger pointing at the number 1 button. The background is slightly blurred, showing the door handle and the lock mechanism. The image is partially overlaid by a large, dark blue geometric shape on the right side.

Access Control System

UHF readers and tags leverage advanced UHF RFID technology for long-range vehicle identification. Built around the uPASS Reach reader and UHF tag, this system provides a reliable and cost-effective solution for parking access. The uPASS Reach reader ensures durability and efficiency, making it an ideal choice for seamless access control.

Surveillance

A surveillance system is essential for modern security, providing real-time monitoring and recording to ensure safety. Synergy Access offers advanced solutions featuring PTZ Cameras, Bullet Cameras, Thermal Cameras, VMS, Servers, and NVRs. Integrated with access control, our systems include features like facial recognition, motion detection, and remote monitoring. We deliver tailored, reliable solutions with seamless installation and ongoing support for residential, commercial, and industrial needs.

Solutions

- Anpr Based Boom Barriers
- Weighbridge Solutions
- EV Charging Station With Complete Solution
- Home Automation
- Drone Based Solutions
- IP Based Distress Alarm Sysytem
